No prior arts have been found to fairly teach or suggest an anti-theft tag having an engagement member with crimping sleeve adapted to receive the second end of the engagement member and supported within the cavity of a housing in alignment with the slot, wherein upon insertion of the second end into the crimping sleeve, the crimping tool is insertable through the slot so as to engage the crimping sleeve in order to secure the second end of the engagement member within the housing so as to form a loop.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
